

Title : The 14th algebraic Combinatorics Workshop

- ♣ Speaker : Organized by M.Hirasaka and J.Koolen
- ♣ Time : August 25, 2006, Fri., 11:00–18:10
- ♣ Place : Math.Sci.Bldg. Seminar Room 404, POSTECH
- ♣ Corresponding Member: Jack Koolen (279–2055)

– Program –

11:00--11:50, Faqir M. Bhatti (LUMS, Lahore, Pakistan)

Some interesting properties of partitions of an integer

12:00–13:30, Lunch

13:40--14:30, Masanori Sawa (Nagoya University, Japan)

On \mathbb{F}_3 -designs with an abelian group as its automorphism group

14:40--15:30, Yuichiro Fujiwara (Nagoya University, Japan)

More on Combinatorial Methods for Designing Optimal Sequences of FH-Spread Spectrum Systems and Related Codes

Coffee Break

15:50--16:40, Tatsuya Fujisaki (Kyushu University, Japan)

The action of finite orthogonal groups in characteristic 2 on the set of anisotropic lines

16:50--17:40, Young Sung Park (POSTECH)

On zeta functions of graphs and hypergraphs

17:40--18:10, Discussion

18:20--21:00, Dinner

Available Devices for Presentation

White Board, Beam Projector and OHP
