Title:The 16th algebraic Combinatorics Workshop

♣ Speaker : Organized by M.Hirasaka, J.Koolen and Y. S. Kwon
♣ Time : November 25, 2006, Sat. 11:00-18:00
♣ Place : The first Sci.Bldg.Room319,Yeungnam University
♣ Corresponding Member:Jack koolen (279-2055)

- Program -
11:00--11:50, Eiichi Bannai (Kyushu University)
Sphere packings and association schemes
12:00--13:30, Lunch
13:40--14:30, Jin Ho Kwak (POSTECH)
Discrete subgroups, Discontinuous subgroups, Triangle groups on
Surfaces and relations to Regular maps
14:40--15:30, Hyun Kwang Kim (POSTECH)
Classification of posets admitting the linearity of isometries
Coffee Break
15:50--16:40, Dongseok Kim (Yeungnam University)
Representation theory of quantum Lie algebras
16:50--17:40, Masashi Shinohara (Kyushu University)
Finite subsets of Euclidean spaces defined by relations of distances
17:40--18:00, Discussion
18:20--20:30, Dinner

Available Devices for Presentation
White Board, Beam Projector and OHP.
